CUSTOMER PORTAL FOR GLOBAL SHOP SOLUTIONS

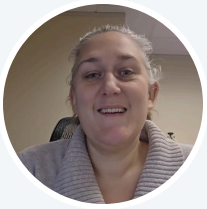

How Viking Got 8 Hours a Week Back

The Customer Portal is an add-on that works with your Global Shop Solutions data. Your customers look up order status, shipment tracking and invoice copies themselves, 24/7, so your team stops fielding the same calls and emails.

PREFERRED PARTNER Global Shop SOLUTIONS

Built and supported by **Expert Internet Marketing**, a Global Shop Solutions Preferred Partner since 2013. Serving manufacturers since 2010.

CUSTOMER STORY

"We're saving at least 8 hours per week, maybe even more."

Danielle Walker, Technology Manager, Viking Power Technologies

Viking makes power sections for drilling motors. Danielle used to email each customer an update on their open orders every week. Now customers look up their own orders.
